## Spread the word not the disease

Sign up to the Significant Diseases Charter

Plan your deliveries and prevent the spread of disease

# 1

### Visitors

#### Don't bring disease in on your boots

- Park off-site and away from pigs
- Wear farm boots, new overshoes and clean overalls
- Always use the foot dips and wheel wash
- Keep to paths and office and away from pigs, unless essential

# 2

### Deliveries

#### If you're not clean on the day – prepare to be turned away

- Stay at the perimeter, where possible
- If going on site, ensure wheel arches and foot wells are clean
- Wear clean overshoes
- Avoid contact with the pigs

# 3

### Deadstock

#### Don't let deadstock spread disease

- Collect promptly from the perimeter
- Establish a line of separation
- Wash and disinfect containers every time
- Never re-enter the site following collection

# 4

### Abattoir

#### Just 1 g of faeces can spread African Swine Fever

- Always wash lorries thoroughly with Detergent – Degreaser – Disinfectant
- Promptly report any issues with the wash facilities
